

## Cookie Policy of Samplix ApS

### 1. COOKIE POLICY

Cookies are small text files stored in your browser that enable the browser to recognize your computer if you visit the website again. Our cookies, which are from SEEEMS CMS and from Google Analytics, do not contain any personal information or viruses.

Samplix ApS is a biotechnology company. Our website includes information on our proprietary products and their applications in gene and cell screening. It is possible to create a customer account to use bioinformatics tools used for our workflows.

We use cookies to store your settings, for statistical measurement of visits and navigation, to support personalized content, and to analyze our traffic. The cookies from SEEEMS CMS recognize visitors. The cookies from Google Analytics measure traffic.

Only Samplix ApS and Google have access to our cookies.

#### 1.1. How long are cookies stored?

The lifetime of our cookies varies but does not exceed 10 years. They are renewed after each visit.

#### 1.2. How to delete cookies

Follow the instructions for your internet browser.

#### 1.3. How to avoid cookies

Follow the instructions for your internet browser. Note that you can also opt out of cookies from Google Analytics [here](#).
